Single Point of Sale

Definition:

Occurs when a *consumer-funded requisition* is *satisfied* at point of release from managed *AWCF-SMA* account which *triggers* associated *billing*.

Exit Criteria, Single Point of

- **1st Criterion:** Middleware will prevent SSF AWCF-SMA SARSS-1 activities from furnishing data to STARFIARS-MOD to create FA1 DBRs.
 - ***Measurement:*** Review the middleware transaction log to determine if STARFIARS-MOD is receiving A5s from any SSF AWCF SMA-funded SARSS-1 activity. If MOD is not receiving such data, the retail level point of sale has been eliminated.
- **2nd Criterion:** STARFIARS-MOD will not pass SSF AWCF SMA-funded SARSS-1 bills to STANFINS.
 - ***Measurement:*** Review cyclical input from STARFIARS-MOD to STANFINS (R001 and F002) to insure that FA1 DBRs do not reflect RICs of any SSF AWCF SMA-funded SARSS-1 sites.

Single Point of Sale

- **Functional Description:**
 - **During cyclical or periodic billing cycles, the MILSBILLS Interfund Billing system creates a Summary Billing Record (SBR).**
 - **The SBR is a DIC FS1, which summarizes the related Detailed Billing Records (DBRs).**
 - **The DBRs include FA1s, that collect for the issue of materiel.**
 - **The Routing Identifier Code (RIC) in the DBR identifies the billing activity such as DLA, GSA, other Services, AMC IMMCs, or retail AWCF-SMA activities.**

Credit Process for SSF

Demonstration

Use National
Calculation
with Fixed Rates

- NSN by NSN for serviceable and unserviceable materiel
- Use locked file for demo sites
- Assess variance from current credit (Metric)

Milestone 1

AWCF and O&M Credit Granted
Using AMDF (NSN by NSN Table
with Fixed Rates)

- NSN by NSN
- Serviceable and unserviceable
- Fixed for one year
- Effective on 1 Oct 00
 - All Army credit NSN by NSN
 - Begin transition to SSF
- CCSS grants AWCF credit using AMDF (phased conversion)
- STARFIARS-MOD grants O&M credit

Demonstration Credit O&M Offset

Purpose: To ensure no loss of buying power as we move forward from dual-tiered credit system to a single-tiered credit policy

- ✓ **Commitment reflected in the SSF Campaign Plan**
- ✓ **Separate from (but related to) need to balance BASOPS, OPTEMPO, and RPM**

✓ **Tasker for SSF PMO to Determine and ASA(FM&C) to Resource O&M Offset for the Demo Sites**

Demo Offset Strategy

- **Comparison of turn-in data between SARSS and STARFIARS-MOD using ILAP for the demo sites**
- **Evaluate credit given in STARFIARS**
- **Develop a standard formula for estimating demo offset in coordination with FORSCOM and TRADOC**
- **Use that estimate to request additional funds in the BES for the demonstration**
